Subject: Fiber Optic Telecommunications Network Construction Project

Dear Mr. Mann:

Verizon, through its wholly owned subsidiary MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services (“MCImetro”), is planning to construct a fiber optic telecommunications network in the public rights-of-way of your community. MCImetro became a wholly-owned subsidiary of Verizon by virtue of Verizon’s acquisition of MCI in 2006. Attached is documentation filed with the Office of the Secretary of State of Connecticut.

MCImetro intends to offer one or more of the following services to business and government customers: competitive local exchange voice and data services, internet access, private line service, cell site front-haul and back-haul capacity using fiber optic cables, and leasing of conduit and dark fiber to third parties as well as future services when they become available. At this time, MCImetro does not intend to offer services to residential customers. MCImetro will not offer residential cable TV video service or personal wireless service.

MCImetro plans to deploy fiber-optic facilities to existing and new cell sites, as well as, business customers within your community. Fiber-optic cable will be installed within the public right-of-way (underground within conduit or aerial on poles). MCImetro will deploy fiber only to existing structures (cell towers, buildings, water towers, utility poles, parking garages, etc.), and no new structures are planned. MCImetro will not construct new cellular towers, small cells, antennas, or other wireless facilities.

MCImetro hereby requests information and forms required by your community for construction of a fiber optic telecommunications system within your community’s public rights-of-way. MCImetro will apply for site specific construction permits once detailed engineering plans are finalized.

If other departments or organizations within your community should also be involved in this process, please forward this message as appropriate.

Please contact me at 972-457-8341 or via email [manoj.devdas@verizon.com](mailto:manoj.devdas@verizon.com) concerning this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Manoj Devdas', with a long horizontal flourish extending to the right.

Office of the Secretary of the State of Connecticut

I, the Connecticut Secretary of the State, and keeper of the seal thereof,  
DO HEREBY CERTIFY, that

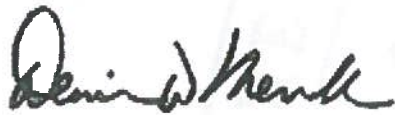

MCIMETRO ACCESS TRANSMISSION SERVICES CORP.

a corporation incorporated under the laws of DELAWARE and transacting business in the state of  
Connecticut under the name

MCIMETRO ACCESS TRANSMISSION SERVICES CORP.

filed an application for certificate of authority to transact business in this office on December 19, 2016.

A certificate of withdrawal has not been filed, the corporation has filed all annual reports, and so far as  
indicated by the records of this office such corporation is authorized to transact business in Connecticut.

---

Secretary of the State
